

***Winnie Dunn, PhD, OTR, FAOTA***

---

**Winnie Dunn, PhD, OTR, FAOTA** is Professor & Chair of the Department of Occupational Therapy Education at the University of Kansas Medical Center. She studies people's responses to sensory experiences in everyday life, and is the author of the Sensory Profile measures, informant questionnaires that cover the life span and are used in both practice and research programs internationally. Most recently, she published Living Sensationally: Understanding your Senses, a book that translates her research for the public. This book has been featured in TIME magazine, the London Times, on Canadian Public Radio, and Cosmopolitan magazine. She is a member of the NIH Toolbox Steering Committee and is directing the somatosensory section of the Toolbox effort.
